

# 10 · CORSO · COMO

10 Corso Como Cafè opens in 1988.

Located in the inner courtyard of 10 Corso Como, it completes the 10 Corso Como multifunctional philosophy.

Next to the Garden Cafè, which opened in 1991, the cafè restaurant is designed to flow between the inside and the conservatory garden outside.

The cafè was founded in a converted garage renovated by artist Kris Ruhs who left intact its structure and form, light becoming the core.

The wide sliding metal and glass door has been painted and transformed into a light wall by Ruhs.

The ceiling is a glass painted structure, its different lights change the mood from day to night and they are reflected on the resin golden floor.

The illuminated sculpture on the main wall gives another dimension to the space.

The round bar in the middle is surrounded by leather banquettes and black leather lounge chairs that mark out and define the 10 Corso Como Cafè ambience.
